Orders & Account Help

DemoMart | Synthetic help center document | Version 1.0 | Updated September 2026

DemoMart is a fictional online store used only for RAG development and testing. The policies below are synthetic demo data and do not describe a real company.

1. Finding an Order

For signed-in customers, open **Account > Orders**. Orders are grouped as Processing, Shipped, Delivered, Cancelled, Returned, or Refunded. Each order has a unique order number in the format **DM-YYYY-######**.

Guest orders

Customers who checked out without an account can use the Order Lookup page with the order number and the email address used at checkout. Creating an account with the same email does not automatically merge every past guest order.

2. Order Status Definitions

Status	Meaning	Typical next step
Processing	Payment has been accepted and the fulfillment team is preparing the order.	Wait for shipment confirmation or cancel before dispatch if cancellation is still available.
Shipped	The parcel has been handed to the carrier and a tracking number is available.	Use tracking for delivery updates.
Delivered	Carrier tracking reports delivery.	Contact support quickly for missing or damaged parcels.
Cancelled	The order was cancelled before completion.	Check the payment/refund page for any reversal timing.
Returned	The returned parcel has been received or the return has been registered.	Wait for inspection and refund processing.
Refunded	A refund instruction has been submitted or completed.	Allow the payment provider time to post the funds.

3. Cancelling an Order

Customers may request cancellation while an order is still in a cancellable processing state. Cancellation becomes unavailable once the parcel has entered dispatch or carrier handling. When cancellation is no longer available, the customer may use the return process after delivery if the item is eligible.

Cancellation example: An order marked Processing at 10:00 may still be cancellable. The same order marked Shipped at 12:00 cannot be cancelled from the Orders page and must be handled through the return policy after delivery.

4. Changing a Delivery Address

A shipping address can be edited only before the order is locked for fulfillment. After dispatch, DemoMart cannot redirect the parcel through the Orders page. Customers should use carrier delivery-management options when available or contact support if the parcel cannot be delivered.

5. Account Access Help

Forgot password

Use the password reset link on the sign-in page. The reset email is sent to the account email address. Reset links expire after 30 minutes and can be used once.

Email address change

Go to Account > Profile > Email. DemoMart sends a verification message to the new email address. The account continues to use the old address until verification is completed.

Account locked

After 8 unsuccessful password attempts within a rolling 15-minute period, sign-in is temporarily locked for 30 minutes. A password reset can be used after the account becomes available again.

6. Invoices and Receipts

For completed purchases, customers can open Account > Orders > Order Details and choose Download Invoice. Guest customers can request an invoice using the Order Lookup page. A tax invoice is generated only when the billing information supplied at checkout meets the requirements of the selected market.

7. Common Troubleshooting Questions

I was charged but my order is not visible.

First check whether the order confirmation email was received. Temporary card authorizations can appear before an order is fully created. If no order exists after 30 minutes, use Order Lookup or contact support with the payment reference.

Why is tracking not updating?

A tracking number can exist before the carrier posts the first scan. The first tracking event may take up to 24 hours after dispatch. If there is still no carrier event after 48 hours, contact support.

Can support give me the full card number?

No. DemoMart stores only limited payment details such as the card brand and masked last four digits. Support will never request or disclose the full card number or CVV.

8. Support Contact

DemoMart support demo hours: Monday-Friday, 9:00 AM-6:00 PM IST. For order questions, include the order number. For payment questions, include the payment reference but never send your CVV or full card number.
