Shipping & Delivery

DemoMart | Synthetic shipping document | Version 1.0 | Updated September 2026

DemoMart is a fictional online store used only for RAG development and testing. The policies below are synthetic demo data and do not describe a real company.

1. Delivery Services

Service	Processing time	Transit estimate*	Typical use
Standard	1-2 business days	3-6 business days	Most domestic orders
Express	Same or next business day	1-2 business days	Time-sensitive eligible items
Economy	1-3 business days	5-9 business days	Lower-cost delivery where offered

*Transit estimates are demo estimates, not guaranteed delivery dates. Remote areas, peak periods, weather, carrier disruptions, and address issues can add time.

2. Shipping Regions

DemoMart standard shipping in this demo dataset covers most serviceable addresses in India. Express and Economy availability depends on postal code, product type, package dimensions, and carrier capacity.

3. Delivery Charges

Order condition	Demo shipping rule
Standard delivery	Rs. 49 below the free-shipping threshold
Free shipping	Rs. 799 or more in one eligible order, before excluded fees
Express	Price shown at checkout based on postal code and package
Oversized or special-handling item	Additional fee may apply and is shown before payment

4. Tracking a Shipment

Once the parcel is dispatched, the order page shows the carrier name and tracking number. Carrier tracking can take up to 24 hours to display the first scan. DemoMart customer support cannot manually force a carrier scan.

5. Estimated Delivery Dates

Checkout shows an estimated delivery date using the selected service and the delivery postal code. The estimate begins after order processing. For example, a Standard order placed late Friday may not enter carrier transit until the following business day.

6. Delayed Shipments

If tracking has not changed for 48 hours after dispatch, the shipment may still be moving between carrier facilities. If the estimated delivery date passes with no delivery, customers should contact support so DemoMart can start a carrier investigation when applicable.

7. Failed Delivery Attempts

• The carrier may make more than one delivery attempt depending on the service area.

• Customers should keep the phone number available that was entered during checkout if the carrier uses delivery calls or messages.

• If a parcel is returned to DemoMart because the address was incomplete or delivery attempts failed, DemoMart may wait for customer instructions before reshipping.

• A reshipment caused by an incorrect address entered by the customer may have a new shipping charge.

8. Changing an Address After Shipment

DemoMart cannot guarantee address changes after dispatch. When supported, the carrier may offer options such as delivery rescheduling or collection from a pickup point. Customers should not share one-time passwords with a caller claiming to be a carrier representative.

9. Missing, Damaged, or Incorrect Deliveries

Package marked delivered but not received

Check building reception, household members, safe-drop locations, and nearby delivery points first. If the parcel is still missing, contact DemoMart support promptly with the order number so the delivery record can be reviewed.

Package arrived damaged

Keep the product, packaging, and shipping label. Take photos when possible and start a return or damage report from the order page. Do not discard the packaging before the case is resolved.

Wrong item received

Start an exchange or return from the order page and select Wrong item received. DemoMart will determine whether a replacement or refund is appropriate based on inventory and the case review.

10. Delivery FAQs

Can I choose a specific delivery time?

A specific delivery appointment is not available for standard DemoMart shipping unless the checkout page explicitly offers a scheduled slot.

Why did my order ship in separate packages?

Items can ship separately when they are stored in different fulfillment locations, have different handling requirements, or are ready at different times. Each package can have its own tracking number.

Does free shipping apply to every item?

No. Certain oversized, special-handling, marketplace, or otherwise excluded products can have separate shipping charges. Checkout shows the final shipping amount before payment.
